

You have probably noticed a revival of the Punto Banco game in recent years, however complicated gaming rules can be a hurdle for new players. FAT TRIO has been developed based on some easy Punto Banco features.

Double the excitement by giving your players the opportunity to bet on both the PLAYER and BANKER cards!

This game is played with six decks of cards.

# Higher

Which sum of two cards will be higher, the Player, or the Banker ?  
The player can choose as he can bet on both!

The card values correspond to the Baccarat or Punto Banco game and are as follows:

A=1, 2=2, 3=3, 4=4, 5=5, 6=6, 7=7, 8=8, 9=9, 10=zero, J=zero, Q=zero, K=zero.

The sum 9 is the highest sum.

The winning hand pays 1:1.

## Unique feature

The Sum 9 always wins and pays 3:2.

In the case of égalité (tie), except with sum 9, the bank wins.

One box, double excitement!

If the BANKER **OR** PLAYER cards are 7+8 or 8+7,  
the bank pays 25:1  
suited pays 75:1

**Bonus:** if both PLAYER and BANKER have 7+8 or 8+7, suited or not, the  
bank pays 200:1!

The player is free to choose to bet on the sum of the two first PLAYER AND/OR BANKER cards.

The card values correspond to the BlackJack game except the Ace, which always counts as 11.

Unique feature

If the sum 7 (3+4, 4+3, 2+5, 5+2) is made, then all three chances win.

The betting options are:

**4-14**

**15-18 or sum 7**

**19-22 or sum 7**
