

Get The Picture is a brand new, very exciting and very enjoyable side bet for Blackjack, yet it has the shortest and simplest game description you'll have come across.

THRILLING AND EASY

If the player, with his first two cards, gets two picture cards, he wins his bet at least **x11**.

In the same playing round, the winnings can be even much higher if the dealer also has a specific pair of cards with his first two cards, the reward can be up to **x500!!**

WHY PLAYERS LOVE IT

If the player gets two pictures with his first two cards, they know they have a chance of winning big, no matter the value of the dealer's first card.

The excitement will build and increase until second dealer's card is dealt!

We've never met a player who doesn't want to feel that he can win really big by getting just two picture cards, have you?

NOTE

The two picture cards for the player do not have to form a pair, the player would win with K + Q or J + K etc...

The house edge as above with 6 decks of cards: **5,19%**
Alternative pay tables and progressives with jackpots are available on request.

PLAYER HAND	DEALER HAND	PAYOUT
