

# Higher 7

The player bets that his first card is higher than the first card of the dealer.  
The highest card is 7 which results in following card order: 7,AS,K,Q,J,10,9,8,6,5,4,3,2.  
The bet pays even money (1:1)  
For any pair (except pair of 7), the bank wins.

## UNIQUE FEATURE

If the player gets a 7 with his first card, he always wins and gets his bet paid 3:2.

House edge : 2,41% with 6 decks of cards and automatic shuffler.
