

SUMMIT 7

The player bets on the sum of the first two dealer cards. The card values correspond to a normal blackjack game except the Ace, which always counts as 11.

Unique feature

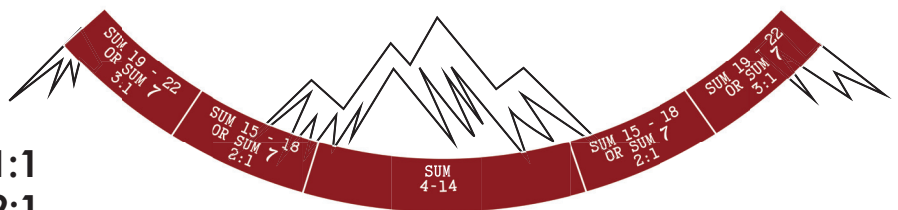

First casino game where you can simultaneously win on all odds offered.

If Sum 7 comes with the first two cards of the bank, all the boxes of Summit 7 pay!

Protect your blackjack hand against a good dealer hand by betting on the box 19-22 and get your bet paid 3:1.

The betting options are:

4-14	pays 1:1
15-18 or sum 7	pays 2:1
19-22 or sum 7	pays 3:1

The card values correspond to a normal BlackJack game except the Ace, which always counts as 11.

Examples:

= Sum 19 and pays 3:1

= Sum 7 and all 3 odds win
